

ART HIGHLIGHT

# Digging Some Art

Over the past year, the Ground Floor Gallery has been hosting a novel series of art happenings based around the four natural elements: air, water, fire and earth.

The series culminates on Saturday with Dig, a multi-media event with terra firma as its theme. Through video, photography, painting, sculpture, installation, performance and music, more than 50 local artists will explore the visceral and abstract properties of the ground beneath our feet.

A portion of the sales will benefit Breaking New Grounds, a non-profit community food system that turns "waste into wealth." Costumes are encouraged, and an after-party will be at 11:30 p.m. at Main Street Lounge.
