

**RE: Enrica Sciandrone**

To Whom It May Concern:

I am more than happy to recommend Enrica Sciandrone for her dedication to outstanding compositions by working in partnership with our own organization and respected new music ensemble Psappa to realise a commission for the Moving Classics project in 2016. Her work always showed a discipline and dedication to delivering results that stood out from the norm and her working manner with our production team and the musicians always ensured that morale and ambitions were high.

Enrica is a hard-working, diplomatic, capable and energetic creative professional. Her work brought a finesse to our delivery of light and music events and her professionalism, attention to detail and high artistic standards underpinned the project's collaboration with Psappa.

I can highly recommend her work and would have no hesitation recommending her for a collaborative music project.

Yours,

Andy Brydon
