	Wooden Boat, Maps and Drawing Model	

My art is expressive and composed through a variety of media. I use objects some might consider junk. Impurities of these objects add a richness to the work. To me they are neither store bought, junk nor scraps, but carefully selected items that convey a message and feeling. My goal is to create orderly form while changing the relationships of these objects to produce sensual, emotional or intellectual reactions. My work often conveys a mood of fun, high kitsch sensibility humor and irony.
