# DESTINATION WEDDING SERVICES

The above list of services for weddings also applies for destination weddings (except for any costings for site visits which if required will be quoted on a case by case basis), however there are a few quirks and realities specific to destination weddings which we can help you with.

## Destination Guides

**Destination research** - this is for couples who know they want to get married abroad but don't know exactly where they want to go. We will research the best destinations for the time of year, legalities, number of guests and other considerations you may have such as travel time and budget. The first step is completing our detailed questionnaire and once we have those answers we will put together proposals for you of different countries and areas that suit your needs.

£300

**Wedding comparison** - most destination weddings booked from the UK are sold as a package from a big name supplier and there's nothing wrong with this but it can be very confusing to know where to start and of course the sellers of these packages are incentivised to sell you their packages, whether they are right for you or not. This service narrows down the hundreds of packages available to just a few which we believe will be the best fit for the wedding you want with the budget you have. And if the package doesn't include any elements which you desire we will include costings to add those elements either through the provider or independently booked.

£300

**Bespoke destination wedding** - sometimes the packages on offer from major suppliers just aren't right for your needs and you need something more bespoke. This is where we come into our own. We can find the very best of the best in whatever destination you want to get married and put together an independently sourced destination wedding that's exactly how you imagined it. Be prepared that this process can take considerable time as "island time" is a real thing. But we promise it will be worth it. This price includes everything described in our complete wedding service as described above as well destination research and destination supplier and venue management throughout the wedding planning process. Any travel and accommodation is chargeable separately. If you do not require every aspect of this service then we are totally flexible and all of our wedding services can be applied to destination weddings also. We can arrange a destination wedding for you anywhere in the world.

# ELOPEMENT WEDDING SERVICES

The above list of services for weddings and destination weddings also applies for elopements (except for any costings for site visits which if required will be quoted on a case by case basis), however we also offer specialist services specifically designed for elopements.

## Complete Elopement services

Elopement - Exciting, adventurous and desperately romantic, elopement is perfect for the trail blazing couples of the world who aren't afraid to do life their way. Elopements open up a world of possibilities giving you and your 10 or less guests choices of venues, destinations and suppliers that are just not normally possible in the traditional wedding industry at the moment. Elopements can be arranged on fairly short notice and have a very special place in our hearts. Whilst eloping can have a shorter to do list than a traditional wedding there are still certain things that you may want to do and require some planning. So the first step is completing our detailed questionnaire, after which we'll provide you with a bespoke elopement to do list. We'll refine this list together and then work through it to achieve the elopement of your dreams. This price includes: destination and venue research and management, budgeting, supplier recommendations and management (usually elopements still have some suppliers and we at the very least thoroughly recommend hiring an amazing photographer to capture all the beauty of these special moments), timeline creation and management. It does not include attendance to the elopement but this can of course be arranged and will be quoted on a case by case basis to include travel and accommodation expenses, We can arrange an elopement wedding for you anywhere in the world. Any of other services as described above for weddings and destination weddings can also be combined with this elopement service to create a bespoke planning service for exactly what you need help with.
