

Speech Language and Fine motor Development workshop From Birth-5 years

Presented to you by:

Ruth L. Tomalski M.S., OTR/L
Www. Livelearnplayot.com
Livelearnplaynyc@gmail.com
516-776-1606

Our objective for this workshop is to help parents learn the difference between normal language development vs. speech delays and impairments. As well as an understanding of your child's fine motor development and what to do should your child exhibit a delay?

Through this workshop parents will:

- Learn to promote your child's language development through everyday activities and play
- Adjust the way you speak to help your child develop advanced language skills
- Learn what options are available to you through the city when seeking therapy
- Learn speech and language milestones to follow your child's language development
- Learn to follow your child's fine motor, visual motor, and sensory motor milestones
- Learn how to adapt an activity (small crayons, easel, etc.) to promote fine motor skills
- Receive handouts with age appropriate games and recipes for play dough, goop, and many more fun filled ideas!!!!

Where: The Craft Studio
1657 3rd Avenue
NY, NY 10128
(212) 831-6626
