

Compliant Farms Fee Schedule

December 9, 2015

Integrating the principles of adaptive watershed management with permaculture land and water use practices and cannabis farming techniques to create watershed sustainability and fulfill California Regional Water Quality Control Board North Coast Region Order No. 2015-0023.

Hollie Hall and Dan Mar, owner / operator's of Compliant Farms, specialize in helping cannabis farmer's to understand regulatory thresholds and to bring their farms into full environmental compliance. Free phone consultations are always available to provide you with the information needed to take the next step.

The information contained within this document may vary over time and by client. Please contact us to discuss your specific needs and to obtain a personalized estimate.
