

Textile Pricing

Textile pricing is based on square foot of your chosen media. The printed image plus border or extra fabric for hemming would be calculated as the total sheet size per each print. We have 3 pricing tiers of media to choose from - \$15, \$18 and \$24 per square foot. The first print of each original image are calculated at the listed (tier) rate - \$15, \$18, or \$24 per square foot. Additional copies of each original image, if ordered and printed at the same time, begin at 20% off. Other copy quantities can qualify for larger discounts. See an iolabs Team Member for a free, custom quote.
