

We Have Seen Your Glory

You are the start of all
The lover of sinful man
The keeper of my heart
More beautiful than the stars

You are the light of man
Shinning for the world to see
Nothing can outshine your love
Not even the brightest star
So now we sing

*We have seen your glory
The glory of the one and only
Sent from the Father above
So full of truth and grace
So now we sing*

You are the one to come
The one we have been waiting for
And while we are living here
We'll live a life of love
So now we sing

So shine your light
And shine your love
And shine your grace
Down on us now
